Twitter Followers Monitor

Twitter Followers Monitor is your all-in-one solution to monitor your Twitter account and accounts that you administer. The application will help you see who is following your Twitter account(s), who is leaving your followers and who is leaving your followees. It has been developed to be a small tool that will let you do just that. Twitter Followers Monitor Features: - Monitor your Twitter account(s) so you know when new followers, lost followers and departed followers are following you. - Monitor the accounts you administer so you can keep an eye on who the top users on your account are. - View the location of your followers to see if they are near where you live and therefore easily to contact. - Monitor multiple Twitter accounts if you wish. They can be set as individual categories or set to monitor all. - Monitor accounts from within Twitter too if you wish. - View a statistical breakdown of your followers and more. Twitter Followers Monitor Download Twitter Followers Monitor Free Twitter Followers Monitor Trending News Twitter 2017-10-12,20:21 Socialverse is a trendy discussion platform which provides similar services as Whatsapp and Viber with the help of Twitter account verification. Get verified in 10 minutes. Follow us on Instagram: 2017-10-03,22:54 Image courtesy of Twitter Check out the Top 10 apps of 2017 The Top 10 apps of 2017 have been revealed by Apple and Twitter. The best way to find out if your favorite app of 2017 made the cut? Just head to the Web app section of the App Store. From Apple: In a move that's sure to ruffle a few feathers, Apple has updated the app store app to include daily top apps. Now, you can flip through the Top Free apps, Top Grossing, Top Appearances and Top Trending apps in a simple swipe. While the app hasn't overhauled the personalization and recommendation algorithms to tailor the experience to your preferences, it does offer a new account activity bar that lets you track your favorite apps. It's a welcome change from the app's more sparse social network ties, in which you can only follow people and see what posts they make. Here are the apps that made the grade on December 20, 2017: Weather: For some, weather data is invaluable. On

The Twitter Followers Monitor application can be integrated with your Twitter accounts to keep track of the engagement of your account and your followers. Twitter Followers Monitor is a desktop (Windows, Mac) & mobile (Android, iOS) app that works as a dashboard to monitor Twitter accounts. It shows you the most recent and the former timeline of each account in a few minutes. Each Twitter account has its own dashboard. Whenever you add or update a Tweet on your dashboard, it will be reflected on the other accounts, so you can monitor them in real time. Currently, Twitter Followers Monitor supports five accounts. Each account will have its own user interface, which can be customized according to user preferences. You can use the app to check the following: - number of followers - recent tweets - favorites & Retweets count - followers growth - tweets count - mutual followers - like-dislike count - tweets per minute count - number of login - user interface style You can also view and edit your profile, including username, avatar, bio and URL. If you are interested in tracking your followers, you can get a free trial version of the app and start monitoring your accounts immediately. Also, don't forget to check the similar apps to Twitter Followers Monitor.
