Hermetic Color Picker Crack

Hermetic Color Picker is a straightforward and lightweight piece of software that makes it simple for you to break down any color into three components, red, green, and blue and get RGB, decimal or hexadecimal values copied directly to your computer's clipboard. Start using this app to its fullest potential in mere seconds There's not much that can be said regarding the installation process for Hermetic Color Picker, except the fact that it's quite simplistic. Just as simplistic is the app's UI. The utility's main window hosts a series of 16 boxes different values of color components and a large box where you can accurately pick the exact shade of color you are looking for. To get started choose the based color for either the background or the foreground, use the pointer color picker to select the desired shade then and choose what exact set of values should be copied to your computer's clipboard. Straightforward workflow You can choose to copy only background or foreground single

color values, or everything, in which case, please note that you will have to make use of whatever handy text editor, or something like that, in order to clearly access all the data. We should also point out that both the foreground and the background color combinations can be saved and they will remain locked even if you opt to restart the application. As expected, any changes can be canceled by clicking the "Restore" button. Visually select colors and get their decimal and hexadecimal values This app can help you with: - Decimal, Hexadecimal, RGB, hsRGB values of color components - Value selection from the palette box - Selection from the box with hexadecimal, decimal, or RGB values, or the entire color - Background, Foreground, Palette, or Hex colors - Sequential and random colors - Clock colors - Lock color when leaving the app - Saving the color for future use - Customizable buttons - Clean, simple interface - New! checkbox allows to to view the numerical values of colors - New! color slider control to select colors from the palette - Free Form Text to input the decimal and hexadecimal values Color Picker is a free, easy-to-use and visually-dazzling application that is 100% cross-platform compatible and was successfully tested on Windows 10, 8, 7, Vista, Windows Xp, and Ubuntu. It is an amazing little tool that provides you with 3a67dffeec
