Go on an exciting journey through the world of The Mysterious Book! Funny dialogues, colorful comics, and memorable characters await you! Visit 4 unique locations: the Rustic Forest, the Weightless Oasis, the Northern Islands, and Plamegor Volcano, and unravel their mysteries! More than 6 hours of gameplay. Feel the beautifully themed music and awesome sounds! Some features have either been removed or are working on and will be integrated in the future version of the game. We are looking for a publisher for our second game so we need your help to spread the word. Pre-Alpha build will be released soon and we would appreciate a review, either as a Steam, GOG or Desura game. There are no fancy graphics yet, even the interface looks like a 3D game. We are currently operating a kickstarter campaign for our second game so we need your help to spread the word. We have a more advanced version of our second game, called Doomzier Dragon, so we would appreciate a review, either as a Desura or GOG game. Currently our biggest problem is that we are in the middle of a tight schedule and don't have more funding for the project. In order to speed things up we would like to see Doomzier Dragon released sooner than at the end of 2015. We are currently operating a kickstarter campaign for our second game
